## SYMBOL IDENTIFICATION

Global's Certified Products are in compliance with the stringent emission guidelines set by the GREENGUARD Environmental Institute and include all Upholstered Seating. To obtain a GREENGUARD Certificate for any product, please go to the product page on our website [www.globaltotaloffice.com](http://www.globaltotaloffice.com) and click on "View GREENGUARD Certificate".

level™ certification, based on the ANSI/BIFMA e3-2012 furniture sustainability standard, sets furniture manufacturers on a path toward greater sustainability over time. Based on environmental and social criteria set forth in the standard, a product's entire supply chain is assessed.

Certification assessment includes an evaluation of specific corporate policies and guidelines and an assessment of associated company manufacturing facilities. Products must meet quantifiable milestones of environmental and social performance at every step of development.

The quantitative assessment addresses four categories: material use, energy and atmosphere impacts, human and ecosystem health and social responsibility.

Manufacturers earn points in each of the four categories. The level™ brand and its numeric rating of 1, 2 or 3 indicate what threshold of certification a product has achieved. level™ 3 is the highest rating.

# WOOD VENEER DESK NOTES

The following applies to all VENEER Series - Corby, Dufferin and Lufton (unless otherwise noted).

## CONSTRUCTION:

- "Number one select, architectural grade A" oak, American black walnut, American black cherry, and hard maple. Wood worksurface moulded edges are solid oak, walnut, cherry, or maple (except where square self-edges exist, i.e. credenza and computer worksurface back edges that are most commonly against walls).

## FINISH:

- Conversion varnish (similar to catalyzed lacquer, but tougher), 25 degree sheen. Finishes are not buffed or rubbed.
- All Global wood casegood products are veneered and finished on the back sides (360 degree finishing), except modular under-surface storage - tops and backs are unfinished.

## PEDESTALS:

- Pedestals are fully assembled units. Undersurface storage units provide standard locks.
- All drawers are standard as vinyl-wrapped black embossed with V-groove construction.
- Drawers are "5-sided". The drawer front is an applied element to a four-sided drawer. Drawer fronts can be removed or replaced in the field.
- Pedestal drawers and lateral file drawers are supported by steel ball bearing suspensions. All suspensions carry a full lifetime warranty against defects.
- All drawers have full extension.

## HARDWARE:

- All necessary hardware items for attaching furniture items are included in the shipment. Actual wall attachment fasteners for wall cabinets, tackboards and visualboards are not included due to variation between site conditions.
- **Leveling glides** are shipped installed on the unit. Levelers have a 1" range of adjustment.
- **Hanging file rails** are pre-installed on file drawer perimeters with additional front-to-back rails found in the bottom of the filing drawers. These rails hang onto plastic clips and do not require any tools to install. The back rail in a lateral file drawer is designed for both legal and letter size filing. To adjust back rail, simply install the rail to the pre-drilled holes accordingly.
- **Flat plates** for attaching bridge and return to desk are shipped pre-attached to the bottom of the bridge or return. **Mini flat plates** for securing bridge modesty panels to desk or credenza end panels, and **quick connectors** for securing modular corner units to adjacent pieces (Dufferin Series) are shipped along with screws in a plastic bag attached to the bottom of the bridge or return. CAUTION: using screws other than those supplied by Global could result in damage to finished tops.

## INSTALLATION:

**Wall-mounted cabinets and visual boards** are pre-attached with horizontal wall rails to the back of each unit. The wall-side components need to be detached from the unit and fastened to the wall accordingly. Wall fasteners are not included due to variation between site conditions. Securing the wall rail to a vertical structural member is the required manner of installation. The cabinet or visualboard is then lowered on to the wall rail. It is important to level the wall rail before installation. Wall cabinets are equipped with levelers at the bottoms of the side panels for proper cabinet alignment. It is recommended to use a single drywall screw through the back of the cabinet and the wall-mounted rail, to further secure the wall attachment.

**Wall-mounted tackboards** have vertical grooves in the back for tasklight wiring. Horizontal wall rails are provided. Fasteners are not included due to variation between site conditions. The site installer need to position the wall rail and determine the type of screw to be used for the application. The tackboard is hung on the wall rail. Using a level will also aid in the tackboard installation.

**Hutches** are installed with double-faced tape applied on the bottom of the end panels. Global utilizes a non-marring method of hutch attachment. The tape is shipped in a plastic bag found in the hutch. Removal of the hutch requires moderate pressure to be applied on the top of the unit towards the wall for at least a minute for the pressure-sensitive tape to release. At the dealer or installer's discretion, additional support may be added by installing flat plates along the back of the attached units. These flat plates are not included in the shipment.

**Hutch tackboards** are factory installed.

**Modular storage units** have pre-drilled holes through the tops for securing to the bottom of the worksurfaces. Disassemble the modular unit first before relocating the entire unit to avoid damage or body injuries.

**5-Sided corner tables** and adjoining bridge and credenza run-offs are attached with MP-53 mending plates. Accurate leveling is critical for these units to align and connect properly.

**NOTE: Leveling wood office furniture properly is the most important procedure to ensure proper functioning and alignment of drawers, locks and doors. Upon completing installation, wipe furniture with a damp cloth, followed with a dry soft cloth - always in the direction of the grain.**

# corby

global

Introducing the Corby Collection of wood veneer desks, tables and storage elements. Christopher Wright has reflected on the mid-century modern vernacular to design a unique series of workplace furnishings that reward a new generation of pioneers and nation builders.

Corby is suited for any office environment, private office, boardrooms, open desking and collaborative areas. Its timeless design is expressed in subtle details - flared legs that elevate storage off the floor, tapered aprons on the bottom of storage pieces which reflect the knife edge detail of the worksurface. Standard height and counter height tables combined with tiered storage pieces offer a reprieve from formal boardrooms and deliver a more casual style for meeting areas.

Corby is a fresh take on desking, blending the warmth and comfort of residential-style furniture with the features and long lasting quality you'd expect from Global.

The **Dufferin** series is a unique entity in that it integrates wood veneer and laminate. Worksurfaces, drawer and cabinet fronts use genuine wood veneer while the chassis and cabinets are finished in your choice of laminate or wood veneer. The result is a rich, two tone appearance to coordinate with any contemporary business interior.

Key features include a two inch knife edge providing clean, crisp detailing, grommets, a reverse profile/self edge edge on connecting worksurfaces, square or round post leg on islands, base and modesty panel upgrades and endless electrical options.

Storage options are available in 29", 48", 54", 66", 72" and 84" heights. Various models include storage cabinets, file modules, mixed storage cabinets, open shelving, wardrobe cabinets and personal towers.

Above worksurface storage selections include overhead storage and hutches with or without pigeon-hole storage. Hutch doors are available in a choice of veneer or glass with an aluminum frame. Tackboards are offered in all fabric or with a built-in accessory rail for organizing folders, binders, cds and more!

Contemporary **two inch overhang knife edge** on user and guest sides. Self-edge veneer on ends and wall sides.

Optional **base upgrades** include a rectangular two tone base (shown) and elliptical base. Available on most islands.

Tackboards with **accessory rails** accommodate letter trays, binder bins and file holders.

- Modesty panel options include metal in Black or Tungsten and veneer
- Base upgrades to replace standard monopost on islands are available in four styles

## GENERAL INFORMATION

- Dufferin is a veneer and laminate desking system composed of hundreds of models, capable of furnishing executive suites, boardrooms and reception areas.
- 1 3/16" thick worksurfaces utilizing pedestal and panel construction with top over side panel design.
- Full modesty panels on desks are available in either a straight or breakfront style
- Global desking products are in compliance with stringent emission guidelines set out by the Greenguard Environmental Institute under the standards for low emitting products and materials. [www.greenguard.org](http://www.greenguard.org)
- **Level 2 Certified**

## WORKSURFACES

- Standard with 1 3/16" top thickness
- All surfaces constructed from grade "A" veneers
- All top surfaces feature a contemporary 2" overhang knife edge on user and guest sides. Self-edge veneer on ends and wall sides.

Contemporary 2" overhanging knife edge

## CONSTRUCTION

- "Number one select, architectural grade A" oak, American black walnut, American black cherry, hard maple and lyptus. Wood worksurface moulded edges are solid oak, walnut, cherry, maple or lyptus (except where square self-edges exist, i.e. credenza and computer worksurface back edges that are most commonly against walls).

## FINISHES

- Conversion varnish (similar to catalyzed lacquer, but tougher), 35 to 40 degree sheen. Finishes are not buffed or rubbed.
- All Global wood casegood products are veneered and finished on the back sides (3600 finishing), except modular under-surface storage - tops and backs are unfinished.
- Global standard finish, on oak and walnut, is open pore and on cherry and maple is semi-closed pore. If a full finish is required for walnut, cherry, anigre and maple tops, Add the suffix "Z" to the finish code and Add 5% to the base pricing for each product.

**CUSTOM FINISH IS AVAILABLE.**

## PEDESTALS

- Black embossed vinyl-wrapped construction drawer sides and bottom are standard.
- All pedestals are full to floor and locking.
- Double pedestal models feature a choice of four drawer configurations: two file/file pedestals (EE), two box/box/file pedestals (DD), file/file on left, box/box/file on right (ED), or file/file on right, box/box/file on left (DE).
- Single pedestal models feature a choice of two drawer configurations: one file/file pedestal (E) or one box/box/file pedestal (D) on the left or right.

## HARDWARE

- All necessary hardware items for attaching furniture items are included in the shipment. Actual wall attachment fasteners for wall cabinets, tackboards and visualboards are not included due to variation between site conditions.
- **Leveling glides** are shipped in a plastic bag attached to the bottom of the item or inside the pedestal. It is important to install leveling glides to ensure the unit is level. Levelers have a 1" range of adjustment.
- **Hanging file rails** are pre-installed on file drawer perimeters with additional front-to-back rails found in the bottom of the filing drawers. These rails hang onto plastic clips and do not require any tools to install. The back rail in a lateral file drawer is designed for both legal and letter size filing. To adjust back rail, simply install the rail to the pre-drilled holes accordingly.

- **Flat plates** for attaching bridge and return to desk are shipped pre-attached to the bottom of the bridge or return. **Mini flat plates** for securing bridge modesty panels to desk or credenza end panels, and quick connectors for securing modular corner units to adjacent pieces (Dufferin Series) are shipped along with screws in a plastic bag attached to the bottom of the bridge or return. **CAUTION:** using screws other than those supplied by Global could result in damage to finished tops.

## LOCKS

- Locks are standard on all "below worksurface level" drawer and door storage units with the exception of the stationary organizer, pull-out tray units and single lateral file drawer combination tray/slot units. Combination storage unit comes with lock for file and lateral file drawer only, box drawers cannot lock.

global

GLOBAL is pleased to introduce the **LUFTON** wood veneer series. This contemporary collection features an all wood veneer construction with a variety of features that emphasize a modern approach to the private office.

1" worksurfaces include a choice of four ¼" hardwood edges to choose from – Flat (L10), Radius (L20), Fluted (L30) and Soft Tail (L40). A black 5mm PVC inlay between the worksurface and gable provides a striking visual detail. Drawers and storage items feature eight handle options to choose from (where applicable) – storage options are available in 29", 66" and 72" heights. Various models include different types of storage configurations.

New 23" height credenzas allow for different visual planes – combined with a spacer unit, worksurfaces can be supported over this credenza.

Above worksurface storage selections include overhead storage and hutches with or without pigeon-hole storage. Hutch doors are available in a choice of veneer or glass with an aluminum frame. Tackboards are offered in all fabric or with a built-in accessory rail for organizing folders, binders, CDs and more!

## Care and Cleaning

### Textiles

**Fabrics:** To extend the life of your seating upholstered in fabric, regularly dust the chair to prevent airborne particles from penetrating the fabric surface.

For light soiling, use a damp cloth and blot the spot with very slight pressure, taking care never to soak the fabric. Dry with a clean cloth by blotting - never rub fabric. More intense stains can be treated the same way, but with a mild detergent. Always test fabric first in an unseen area before using any cleaning method.

**Leather:** For regular cleaning, simply use a soft damp cloth, taking care not to soak the leather. For more thorough treatment, soak a soft cloth in mild soap solution and wipe surface in a light circular motion. Repeat with clean water. Allow to dry and polish with a soft dry cloth. Do not use detergents, aerosol sprays or other polishes.

### Hard Surfaces

**Wood Veneer Finishes:** Waxing or polishing catalyzed finishes is not recommended because this will give a greasy, cloudy or uneven appearance to the product and could void your warranty. Global's conversion varnish is best cleaned by wiping the surface with a damp cloth, followed by a soft dry cloth in the direction of the grain. If the surfaces are heavily soiled, a gentle product like "Windex" can be used, following the same instructions as above.

**Laminate & Painted Metal Finishes:** Using a soft cloth, simply wipe the surface with a mild soap solution or glass cleaner. Always use a dry cloth and circular motion to prevent streaks.

- 
- **Water-Based Cleaner:** Spot clean, using the foam only from a water-based cleaning agent, such as a mild detergent or non-solvent upholstery shampoo product. Apply foam with a soft brush in a circular motion. Vacuum when dry. Pretest small area before proceeding.
  - **Solvent Cleaner:** Spot clean, using a mild water-free solvent or dry cleaning product. Clean only in a well-ventilated room and avoid any product containing carbon tetrachloride or other toxic materials. Pretest a small area before proceeding.
  - **Water/Solvent Cleaner:** Spot clean with a mild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.
  - **Vacuum Only:** Clean this fabric only by vacuuming or light brushing to prevent accumulation of dust and grime. Water-based foam cleaning agents of any kind may cause excessive shrinking, staining, or distortion of the surface pile and therefore, should not be used.
  - **Crypton Cleaning:** Generally stains are removed with plain water and powdered enzyme detergent. Upholstery foam shampoo, water-based cleaning products and germicidal detergents can be used. Be sure to remove all residue from cleaning products with clean water. Do not use solvent-based cleaners or dry cleaning products.
  - These recommendations and codes were developed by fabric specialists. However, because of the various ways fabric can be stained or damaged, there is no guarantee that the results will be completely successful. Use suggested methods on your own responsibility. To help prevent overall soil, frequent vacuuming or light brushing to remove dust and grime is recommended. Use professional furniture cleaning service when overall soiled condition has been reached.

# TERMS & CONDITIONS

This illustrated price list has been designed to facilitate fast reference and easy use. All products are categorized into "seating", "desks", "files", "panels", "tables" and "modular furniture", and are listed numerically within their categories. The line drawings match actual photographs (where possible) to aid in instant recognition of the total range within a series.

Sales of Global-The Total Office ("Global") products are made only on Global's standard terms and conditions of sale which are contained in this Price Book. These standard terms and conditions may be modified or supplemented only by a separately written document signed by Global's authorized personnel at its head office in Marlton, NJ. Any term or condition contained in any purchase order or other form used by dealer/purchaser to order goods (including standard, printed language) which is different from, in addition to, or in any way inconsistent with Global's standard terms and conditions shall be of no force or effect whatsoever.

All illustrations, specifications and prices in this book are based on the latest product information available at the time of publication. Global reserves the right to make changes, at any time and without prior notice, to prices, colors, materials, specifications and models offered.

### Description

Each product shown or described in this price list is standard Global product. Variations are noted at the beginning of each series. Any variations from what is standard may require additional delivery time and cost and may affect the warranty given. Sizes and weights shown are approximate and are subject to slight changes from time to time.

### Prices and Payment

The prices shown in this book, as well as those quoted by Global, are in United States dollars for orders shipped to destinations in the U.S. and Mexico.

If shipping date requested is more than 90 days from date of order, Global shall have the right to use published list prices effective at the time of shipment.

Orders are invoiced at the time of shipment. Terms of payment are net 30 days from date of invoice (1% 15 days) unless otherwise stated. The customer agrees that Global shall have the right to enforce a charge amounting to 1.5% per month (18% per year) on invoices outstanding more than 30 days.

If dealer/purchaser's most recent annual net volume is less than \$5,000.00, payment must be made in advance.

Any products sold by Global shall remain the personal property of Global until fully paid.

Prices are suggested list prices only and are subject to change without notice. Global will, however, attempt to keep dealer/purchasers up-to-date on all developments including price changes.

### Taxes

All prices shown in this book are exclusive of sales, use, excise and other applicable taxes and are the dealer/purchaser's responsibility as per the invoice issued by Global. If dealer/purchaser claims an exemption from such taxes, it shall be the dealer/purchaser's responsibility to furnish Global with an appropriate exemption certificate at time of order.

### Ordering Information

To avoid errors and/or duplication Global requires that all orders be submitted in writing. All orders submitted to Global in writing will be acknowledged on Global's acknowledgement forms governing the transaction. The details appearing on this acknowledgement will describe the items to be shipped and the approximate shipping date. It is the dealer/purchaser's responsibility to determine that the information in the acknowledgment is correct. In the event of an error, the dealer/purchaser must notify Global immediately by telephone followed by written confirmation. Shipping dates are assigned to orders based on the item having the longest manufacturing lead time.

When ordering, please provide the following information:

- 1) Account number (if possible)
- 2) P.O. number
- 3) "Bill to" and "ship to" name and address
- 4) Complete model number
- 5) Description
- 6) Options:
  - a. Upholstery fabric type and color (specify by name and number)
  - b. Color of paint finish, laminate or wood (if applicable)
  - c. Trim options (frame)
  - d. Arms
  - e. Base, Casters
  - f. Mechanism
  - g. Accessories

Dealer/purchaser is responsible for providing correct information when placing an order. Orders with incorrect information (finish, etc.) will be scheduled for manufacturing upon receipt of complete information.

*All phone orders must be confirmed in writing by the customer within 7 days.*

To prevent a delay in processing orders, please specify delivery routing.

### Changes and Cancellations

After the date of Global's acknowledgment of a dealer/purchaser's order, the order may not be changed or cancelled by dealer/purchaser without the written consent of Global. Special order items, C.O.M. and fabric-covered items already in production are not subject to change or cancellation under any circumstances. Fabric-covered items are considered to be in production once the fabric is scheduled for cutting. Other standard items already in production are subject to a minimum 35% cancellation charge.

### Errors and Omissions

All quotations, acknowledgements and invoices are subject to corrections for any errors and omissions.

### FINISHES

#### Seating Finishes

Where painted frames are not a standard color, there is a one time charge of \$578.00 list price per-order for custom wood staining/color matching. Restrictions may apply. The customer must provide a 3" x 3" color chip/sample. Non-standard finishes must be approved by Global prior to acceptance of order.

#### File Finishes

All non-standard finishes must be approved by Global prior to acceptance of order and may be subject to an upcharge.

Laminated Tops - Pricing for all non-standard finishes and sizes must be provided by Global Customer Service and may be subject to an upcharge.

### Desk Finishes

Because the distinctive characteristics and the nature of wood products cause variations, exact matches are not always possible.

Global has launched a finishes program between marketing companies within the Global Group to match products as best as possible when same finishes are specified.

### C.O.M. (Customers Own Material)

Use of Customer's Own Material must be approved by Global prior to acceptance of order. Please refer to page 348 of the Price Book and fill out the Authorization Request Form. Photocopy and use this form as often as necessary. The customer must provide a 12" x 12" fabric sample and advise how the fabric is to be applied. **Fabric yardage requirement will be advised by the factory, and additional yardage may be required if pattern requires matching.** Yardage shown in the List Price Book does not allow for pattern repeat/matching. Send to the address provided on shipping document upon approval from Global. If C.O.M. is difficult to apply or if product shall be modified, extra charges shall be made. Global reserves the right to cancel an order at any time if C.O.M. is inadequate for any reason. Customer's Own Material must be shipped freight and duties paid to our factory. Such shipment must be fully identified with purchaser's order number, RGA # provided by Global, and the item for which material is intended. Performance of C.O.M. when applied to product is the sole responsibility of the purchaser. Global's standard product warranty shall not apply to C.O.M. Use of C.O.M. will not reduce the published list price.

### Textile Grading

All products are priced according to their standard fabric and fabric grade. Lower grade fabrics are available (unless otherwise specified) at same price as standard.

The listing of prices for each model indicates the prices for higher upholstery grades. Prices are based on yardage in imperial measurements.

The carrier signs for all goods received in apparently good order. It is the dealer/purchaser's responsibility to examine goods upon receipt and to file any claims with the carrier for losses or damage to the product occurring during transit, including concealed damage.

Any claims made against Global for apparent defects, errors or shortages must be made by the dealer/purchaser, in writing, within 15 working days after any delivery. Failure by the dealer/purchaser to make any claim against Global within 15 days shall constitute acceptance of the goods and a waiver of any apparent defects, errors or shortages.

## Suspension

In the event that the dealer/purchaser defaults in the payment of any sum due to Global, or in the event the dealer/purchaser's financial condition becomes unsatisfactory to Global, Global shall have the right to defer or discontinue shipment of any goods until such time as the default is cured or the dealer/purchaser provides assurance of payment to Global.
